Budget Justification

Detailed budget instructions have been provided on **Attachment C** Explanation of Pro Forma Budget Worksheet, Pro Forma Budget Justification Worksheet, and Pro Forma Budget Summary

The provider agrees to follow generally accepted accounting procedures and practices which sufficiently and properly reflect all costs incurred by the provider in providing services for payment pursuant to this contract. The provider shall manage and account for all funds received under this contract in accordance with applicable cost principles specified in one of the following federal regulations: OMB Circular A-122 if the provider is a non-profit organization; or 48 CFR Subpart 31.2 if the provider is a for-profit or other business or commercial organization.

Allowable and Unallowable Costs

The U.S. Department of Health and Human Services' Child Welfare Policy Manual directs that costs must be allowable under 45 CFR Part 92 (Uniform Administrative Requirements for Grants and Cooperative Agreements to State and Local Governments). 45 CFR Part 92 states that grant funds may be used only for the allowable costs of the grantees, **sub-grantees** and cost-type contractors. For each kind of organization, there is a set of Federal principles for determining allowable costs. Allowable costs will be determined in accordance with the cost principles applicable to the organization incurring the cost. For state, local, and Indian tribal governments, 45 CFR Part 92 instructs that OMB Circular A-87 should be followed. For private nonprofit organizations (other than institutions of higher education and hospitals), OMB Circular A-122 should be followed. For for-profit organizations (other than hospitals), 48 CFR Part 31 should be followed.

The U.S. Department of Health and Human Services has also stated in its Child Welfare Policy Manual that "costs must be reasonable, that is, no more than the customary costs for performing similar functions in similar institutions".

To be allowable under a Federal award, cost must meet the following general criteria as outlined in Federal OMB Circular A-122 (Cost Principles for Nonprofit Organizations):

- a. Be reasonable for the performance of the award and be allocable thereto under the principles of OMB Circular A-122.
- b. Conform to any limitations or exclusions set forth in the principles of OMB Circular A-122 or in the award as to types or amount of cost items.
- c. Be consistent with policies and procedures that apply uniformly to both federally financed and other activities of the organization.
- d. Be accorded consistent treatment.
- e. Be accorded with generally accepted accounting principles (GAAP).
- f. Not be included as a cost or used to meet cost sharing or matching requirements of any other federally financed program in either the current or a prior period.
- g. Be adequately documented.

Federal OMB Circular A-122 establishes principles for determining costs of grants, contracts, and other agreements with nonprofit organizations.

According OMB Circular A-122, a cost is reasonable if, in its nature and amount, it does not exceed that which would be incurred by a prudent person under the circumstances prevailing at the time the decision was made to incur the costs. The question of reasonableness of specific costs must be scrutinized with particular care in connection with organizations or separate divisions thereof which receive the preponderance of their support from awards made by Federal agencies. In determining the reasonableness of a given cost, OMB Circular A-122 states that consideration shall be given to:

- a. Whether the cost is of a type generally recognized as ordinary and necessary for the operation of the organization or the performance of the award.
- b. The restraints or requirements imposed by such factors as generally accepted sound business practices, arm's length bargaining, Federal and State laws and regulations, and terms and conditions of the award.
- c. Whether the individuals concerned acted with prudence, considering their responsibilities to the organization, its members, employees, and clients, the public at large, and the Federal government,
- d. Significant deviations from the established practices of the organization which may unjustifiably increase the award costs.

Federal OMB Circular A-87 establishes principles and standards for determining costs of Federal awards carried out through grants, cost reimbursement contracts, and other agreements with State and local governments and federally recognized Indian tribal governments. By utilizing a cost reimbursement methodology for establishing payment rates, DCS must adhere to these principles to ensure that Federal matching funds are appropriately claimed.

According to OMB Circular A-87, to be allowable under Federal awards, costs must meet the following criteria:

- a. Be necessary and reasonable for proper and efficient performance and administration of Federal awards.
- b. Be allocable to Federal awards under the provisions of this circular.
- c. Be authorized or not prohibited under State or local laws or regulations.
- d. Conform to any limitations or exclusions as set forth in these principles, Federal laws, terms and conditions of the Federal award, or other governing regulations as to the types or amounts of cost items.
- e. Be consistent with policies, regulations, and procedures that apply uniformly to both Federal awards and other activities of the government unit.
- f. Be accorded consistent treatment.
- g. Except as otherwise provided in the Circular, be determined in accordance with generally accepted accounting principles.
- h. Not be included as a cost or used to meet cost sharing or matching requirements of any other Federal award.
- i. Be net of all applicable credits (e.g. purchase discounts, rebates and allowances, insurance recoveries, other Federal funding).
- j. Be adequately documented.

OMB Circular A-87 defines a reasonable cost as, if in its nature or amount, it does not exceed that which would be incurred by a prudent person under the circumstances prevailing at the time the decision was made to incur the cost. In determining reasonableness of a given cost, OMB Circular A-87 states that consideration should be given to:

- a. Whether the cost is of a type generally recognized as ordinary and necessary for the operation of the government unit or the performance of the award.
- b. The restraints or requirements imposed by such factors as generally accepted sound business practices, arm's length bargaining, Federal and State laws and regulations, and terms and conditions of the award.
- c. Market prices for comparable goods or services.
- d. Whether the individuals concerned acted with prudence, considering their responsibilities to the government unit, its members, employees, and clients, the public at large, and the Federal government.
- e. Significant deviations from the established practices of the organization which may unjustifiably increase the award costs.

According to the Code of Federal Regulations, 48 CFR Part 31, Section 201-2, a cost is allowable only when the cost complies with all of the following requirements:

- a. Reasonableness.
- b. Allocability.
- c. Standards promulgated by the CAS Board, if applicable, otherwise, generally accepted accounting principles and practices appropriate to the circumstances.

- d. Terms of the contract.
- e. Any limitations set forth in this subpart.

When contractor or provider accounting practices are inconsistent with this section of the code, costs resulting from such inconsistent practices in excess of the amount that would have resulted from using practices consistent with this subpart are unallowable.

A contractor or provider is responsible for accounting for costs appropriately and for maintaining records, including supporting documentation, adequate to demonstrate that costs claimed have been incurred, are allocable to the contract, and comply with applicable cost principles in this subpart and agency supplements. The contracting officer may disallow all or part of a claimed cost that is inadequately supported.

According to 48 CFR Part 31 Section 201-3 a cost is reasonable if, in its nature and amount, it does not exceed that which would be incurred by a prudent person in the conduct of competitive business. Reasonableness of specific costs must be examined with particular care in connection with firms or their separate divisions that may not be subject to effective competitive restraints. No presumption of reasonableness shall be attached to the incurrence of costs by a contractor. If an initial review of the facts results in a challenge of a specific cost by the contracting officer or the contracting officer's representative, the burden of proof shall be upon the contractor to establish that such cost is reasonable.

48 CFR Part 31 Section 201-3 further states that what is reasonable depends upon a variety of considerations and circumstances, including:

- a. Whether it is the type of cost generally recognized as ordinary and necessary for the conduct of the contractor's business or the contract performance;
- b. Generally accepted sound business practices, arm's length bargaining, and Federal and State laws and regulations;
- c. The contractor's responsibilities to the Government, other customers, the owners of the business, employees, and the public at large; and
- d. Any significant deviations from the contractor's established practices.

Consistent with Federal guidelines, DCS will not pay any provider for certain unallowable expenses and costs. The unallowable costs and expenses will not be considered by the Department. Unallowable costs and expenses must be paid with funds secured from a funding source other than the department. Following the specific language of OMB Circular A-122 and consistent with OMB Circular A-87, the following costs are unallowable:

- a. Fines and penalties resulting from violations of, or failure of the organization to comply with Federal, State, or local laws and regulations, except when incurred as a result of compliance with specific provisions a contract with the department or instructions in writing from the department.
- b. Investment management counsel and staff and similar expenses incurred solely to enhance income from investments.
- c. Costs associated with the following lobbying activities:
 - a. Attempts to influence the outcomes of any Federal, State, or local election, referendum, initiative, or similar procedure, through in-kind or cash contributions, endorsements, publicity, or similar activity;

- b. Establishing, administering, contributing to, or paying the expenses of a political party, campaign, political action committee, or other organization established for the purpose of influencing the outcomes of elections;
- c. Any attempt to influence the introduction of Federal or State legislation or the enactment or modification of any pending Federal or State legislation through communication with any member or employee of the Congress or State legislature or with any government official or employee in connection with a decision to sign or veto enrolled legislation;
- d. Any attempt to influence the introduction of Federal or State legislation or the enactment or modification of any pending Federal or State legislation by preparing, distributing or using publicity or propaganda, or by urging members of the general public or any segment thereof to contribute to or participate in any mass demonstration, march, rally, fundraising drive, lobbying campaign, or letter writing or telephone campaign; and
- e. Legislative liaison activities, including attendance at legislative sessions or committee hearings, gathering information regarding legislation, and analyzing the effect of legislation, when such activities are carried on in support of or in knowing preparation for an effort to engage in unallowable lobbying.

Excluded from the disallowances outlined above are 1) providing a technical or factual presentation of information on a topic directly related to the performance of a grant, contract, or other agreement through hearing testimony, statements or letters to the Congress or State legislature, or subdivision thereof in response to a documented request by the recipient member, legislative body, or subdivision thereof; 2) any lobbying to influence State legislation in order to directly reduce the cost, or to avoid material impairment of the organization's authority to perform the grant, contract, or other agreement; and 3) any activity specifically authorized by statute to be undertaken with funds from the grant, contract, or other agreement.

- d. Organized fundraising, including financial campaigns, endowment drives, solicitation of gifts and bequests, and similar expenses incurred solely to raise capital or obtain contributions.
- e. Donations and contributions including cash, property, and services made by the organization, regardless of the recipient.
- f. Donated goods or services received by the organization, except when donated services utilized in the performance of a direct cost activity are material in amount.
- g. Bad debts including losses arising from uncollectible accounts and other claims, related collection costs, and related legal costs.
- h. Compensation and special benefits, including fringe benefits, to owners in excess of amounts reasonable for the services rendered. Compensation will be considered reasonable and allowable to the extent that it is comparable to that paid for similar work in the labor markets in which the organization competes for the kind of employees involved. OMB Circular A-87 states that compensation surveys providing data representative of the labor market involved will be an acceptable basis for evaluating reasonableness.
- i. Entertainment including amusement, diversion, and social activities and any costs directly associated with such costs (such as tickets to shows or sports events, meals, lodging, rentals, transportation, and gratuities), except those reasonable expenditures specifically for the benefit of youth placed by DCS with the provider.
- j. Alcoholic beverages.

- k. Litigation expenses and fees if the proceeding (A) relates to a violation of, or failure to comply with, a Federal, State, local, or foreign statute or regulation by the organization (including its agents and employees and (B) results in a conviction in a criminal proceeding, a determination of liability in a civil or administrative proceeding involving an allegation of fraud or similar misconduct, the imposition of a monetary penalty in any civil or administrative proceeding, termination of the contract with the department by reason of a violation or failure to comply with a law or regulation, or a disposition by consent or compromise if the action could have resulted in any of the proceeding dispositions.
- l. Mortgage and loan principal payments. Principal payments represent the return of capital component of a mortgage or loan payment. Depreciation, also a return of capital, is an allowable cost. To allow both depreciation and principal payments would result in double counting the return of capital. Interest expense, the return on capital component of a mortgage or loan payment, is an allowable cost.
- m. Contingency reserves or similar provisions made for events the occurrence of which cannot be foretold with certainty as to time, intensity, or with an assurance of their happening. However, this disallowance excludes self-insurance reserves, pension funds, and normal severance pay.
- n. Advertising and public relations except those which are solely for the recruitment of personnel, the procurement of goods or services necessary to support the program, and other specific purposes necessary to meet the requirements of the department.
- o. Housing of non-clients, Taxes from which exemptions are available to the provider directly, or which are available to the provider based on an exemption afforded by the federal government when the awarding agency makes available the necessary exemption certificates.
- p. Federal income taxes.
- q. Profit margin for any nonprofit entity. Profit margin represents the return on shareholders' equity. Unlike for profit entities, nonprofit entities do not have shareholders or capital at risk, hence it is not reasonable or appropriate to allow a profit margin. The rules do not prohibit nonprofit entities from earning a profit margin in any given year. They simply do not provide for a guaranteed profit margin to be built into the nonprofit's cost structure and payment rates. Any needed operating reserves should be collected through fundraising activities. Donations, contributions, and other private grants are not considered to be credits to be netted against a providers costs when determining net costs to be reimbursed though the payment rates.
- r. Non straight line depreciation except where clear evidence indicates that the expected consumption of the asset will be significantly greater or lesser in the early portions of its useful life than in later portions of its useful life.

The following costs and expenses will be considered by the Department to be unallowable costs and will not be considered:

- a. Salaries: Amounts exceeding the maximum allowable amount as determined by DCS.
- b. Fringe benefits (including payroll taxes): Amounts exceeding the maximum allowable fringe benefit rate (including payroll taxes) as determined by the department.
- c. Case management caseload ratios: Costs associated with case management staff in significant excess of reasonable caseload ratios as determined by the department.

- d. Total administrative costs: Administrative costs (including direct and indirect administrative costs) in excess of the maximum allowable total administrative expense rate as determined by the department.

These contracts do not include behavioral health services.

Audits

The provider acknowledges that it may be required to submit to an audit of funds paid through a contract awarded from this RFP. Any such audit shall be conducted in accordance with IC 5-11-1 et seq., and audit guidelines specified by the State.

DCS considers the awarded provider(s) to be a “vendor,” for purposes of the awarded contract from this RFP. However, if required pursuant to the applicable provisions of the Office of Management and Budget Circular A-133 (Audits of States, Local Governments, and Non-Profit Organizations), following the expiration of the awarded contract from this RFP, the provider shall arrange for a financial and compliance audit of funds provided by the State pursuant to the awarded contract from this RFP. Such audit is to be conducted by an independent public or certified public accountant (or as applicable, the Indiana State Board of Accounts), and performed in accordance with the Indiana State Board of Accounts publication entitled "Uniform Compliance Guidelines for Examination of Entities Receiving Financial Assistance from Governmental Sources," and applicable provisions of the Office of Management and Budget Circular A-133 (Audits of States, Local Governments, and Non-Profit Organizations). The provider is responsible for ensuring that the audit and any management letters are completed and forwarded to the State in accordance with the terms of this Contract. Audits conducted pursuant to this Section must be submitted no later than nine (9) months following the close of the provider's fiscal year. The provider agrees to provide the Indiana State Board of Accounts and the State an original of all financial and compliance audits. The audit shall be an audit of the actual entity, or distinct portion thereof that is the provider, and not of a parent, member, or Subsidiary Corporation of the provider, except to the extent such an expanded audit may be determined by the Indiana State Board of Accounts or the State to be in the best interests of the State. The audit shall include a statement from the Auditor that the Auditor has reviewed this Contract and that the provider is not out of compliance with the financial aspects of the awarded contract from this RFP. The provider shall permit all examinations and shall generate and maintain all documentation necessary to comply with all relevant audit requirements.

Financial Strength Indicator

DCS believes that Respondents to this RFP should be of sound financial strength. DCS is requesting that each Respondent show evidence of the Respondent’s financial strength. A Respondent’s financial strength will be calculated as shown below:

Based on Average Days of Working Capital Available in Cash and Cash Equivalents:

$$\frac{\text{Cash and Cash Equivalents}}{\text{Average Daily Working Capital}} = \text{Number of Days Working Capital}$$

Where:

Cash and Cash Equivalents equals: the most recently completed quarter-end sum of 1) cash; 2) marketable securities; and 3) available lines of credit for the operating agency.

Average Daily Working Capital equals: total direct and indirect expenses for entire operating agency for most recently completed four quarter period divided by 365.

Bidder must calculate their Days of Working Capital and provide:

- a) Total operating agency income statement for most recently completed four quarter period.
- b) Most recently completed quarter end balance sheet.
- c) Summary of terms and conditions of any line of credit agreement to which the operating agency is a party and available balance as of date of submission of RFP response.
- d) Most recent audited financial statements.

Supplemental Support

DCS believes that bidders to this RFP should be rewarded for their ability to provide supplemental support for their program.

Bidder will describe the degree to which existing funding for the programs being submitted within this RFP are supplemented through external sources. These sources could include but are not limited to:

- Foundation Grants
- Government Grants (local, county, other state agencies, and/or federal)
- Donations and Contributions
- Corporate Sponsorships
- In-kind Donations
- Donated Services
- Special Event Revenue (net of expenses)
- Volunteers
- Other Community Resources

Bidder will provide a description of the supplemental supports and any documentation that provides the source and amount of any supplemental funding.

2.6 INDIANA ECONOMIC IMPACT

All companies desiring to do business with State Agencies must complete an “Indiana Economic Impact” form (**Attachment IDOA 2**). This is not a separate evaluation item scored as set forth in 3.2 but still a required form. The collection and recognition of the information collected with the Indiana Economic Impact form places a strong emphasis on the economic impact a project will have on Indiana and its residents regardless of where a business is located. The collection of this information does not restrict any company or firm from doing business with the State. The amount entered in Line 16 “Total amount of this proposal, bid, or current contract” should match the amount entered in the **Attachment C**, Budget Template.

2.7 BUY INDIANA INITIATIVE/INDIANA COMPANY

It is the Respondent's responsibility to confirm its Buy Indiana status for this portion of the process. If a Respondent has previously registered its business with IDOA, go to <http://www.in.gov/idoa/2464.htm> and click on the link to update this registration. Click the tab titled Buy Indiana. Select the appropriate category for your business. Respondents may only select one category. Certify this selection by clicking the check box next to the certification paragraph. Once this is complete, save your selection and exit your account.

Respondents that have not previously registered with IDOA must go to <http://www.in.gov/idoa/2464.htm> and click on the link to register. During the registration process, follow the steps outlined in the paragraph above to certify your business' status. The registration process should be complete at the time of proposal submission.

Additionally, Respondents that wish to claim the Buy Indiana preference (for any criteria listed below) must have an email confirmation of their Buy Indiana status provided by buyindianainvest@idoa.in.gov included in the proposal response. The email confirmation must have been provided from within one year prior to the proposal due date.

Respondents must also fully complete the Indiana Economic Impact form (**Attachment IDOA 2**) and include it with their proposal response.

**SECTION THREE
PROPOSAL EVALUATION**

3.1 PROPOSAL EVALUATION PROCEDURE

The Indiana Department of Child Services has selected a group of personnel to act as a proposal evaluation team from each service area. Subgroups of this team, consisting of one or more team members, will be responsible for evaluating proposals with regard to compliance with RFP requirements. All evaluation personnel will use the evaluation criteria stated in Section 3.2.

The procedure for evaluating the proposals against the evaluation criteria will be as follows:

- 3.1.1 Each proposal will be evaluated for adherence to requirements on a pass/fail basis. Proposals that are incomplete or otherwise do not conform to proposal submission requirements may be eliminated from consideration.
- 3.1.2 Each proposal will be evaluated on the basis of the categories included in Section 3.2. A point score has been established for each category.
- 3.1.3 Based on the results of this evaluation, the qualifying proposal determined to be the most advantageous to Stats identified service area, taking into account all of the evaluation factors, may be selected by the Indiana Department of Child Services for further action, such as contract negotiations. If, however, the Indiana Department of Child Services decide that no proposal is sufficiently advantageous to the State’s identified service areas, the State may take whatever further action is deemed necessary to fulfill its needs. If, for any reason, a proposal is selected and it is not possible to consummate a contract with the Respondent, Indiana Department of Child Services may begin contract preparation with the next qualified Respondent or determine that no such alternate proposal exists.

3.2 EVALUATION CRITERIA

Proposals will be evaluated based upon the proven ability of the Respondent to satisfy the requirements of the RFP in a cost-effective manner. Each of the evaluation criteria categories is described below with a brief explanation of the basis for evaluation in that category. The points associated with each category are indicated following the category name (a minimum of 95 points). Points earned from DCS’s review will be combined with IDOA requirement review for a final maximum score of 100 total points. If any one or more of the listed criteria on which the responses to this RFP will be evaluated are found to be inconsistent or incompatible with applicable federal laws, regulations or policies, the specific criterion or criteria will be disregarded and the responses will be evaluated and scored without taking into account such criterion or criteria.

Summary of Evaluation Criteria:

Criteria	Points
1. Adherence to Mandatory Requirements	Pass/Fail

2. Provider Narrative	5 available points
3. Service Narrative	70 available points
4. Budget	25 available points
Total Minimum Score	100

All proposals will be evaluated using the following approach.

Step 1

In this step proposals will be evaluated only against Criteria 1 to ensure that they adhere to Mandatory Requirements. Any proposals not meeting the Mandatory Requirements will be disqualified.

Step 2

The proposals that meet the Mandatory Requirements will then be scored based on Criteria 2 through Criteria 4 ONLY. This scoring will have a maximum possible score of 95 points with a potential of 5 bonus points if certain criteria are met. All proposals will be ranked on the basis of their combined scores for Criteria 2 through 4 ONLY. This ranking will be used to create a “short list”. Any proposal not making the “short list” will not be considered for any further evaluation.

Step 2 may include one or more rounds of proposal discussions, oral presentations, clarifications, demonstrations, etc. focused on cost and other proposal elements. Step 2 may include additional “short lists”.

Step 3

The short-listed proposals will then be sent to IDOA for final evaluation based on IDOA’s requirements.

The section below describes the different evaluation criteria.

- 3.2.1 Adherence to Requirements – Pass/Fail
Respondents passing this category move to Phase 2 and proposal is evaluated for Management Assessment/Quality and Price.

The following 3 categories cannot exceed 100 points.

- 3.2.2 Provider Narrative 5 available points
- 3.2.3 Service Narrative 70 available points
- 3.2.3 Budget 25 available points

The following 4 Categories will be reviewed by IDOA

3.2.4 Buy Indiana Initiative defined in Section 2.7.

3.2.5 Minority & Women's Business Subcontractor Commitment defined in Section 1.21.

3.2.6 Indiana Veteran Owned Small Business Subcontractor Commitment Section 1.22.

The Department of Child Services designee will, in the exercise of their sole discretion, determine which proposal(s) offer the best means of servicing the interests of DCS. The exercise of this discretion will be final. The department reserves the right to contract with multiple Respondents for the same services within the same region.
